

PLUMB READY & PRE PLUMB	COMPOSITION	HYGIENE	CERTIFICATION	ENVIRONMENT	FEATURES & BENEFITS	FINISHES
<p>GLASS</p> <p>Sentry hinged system only.</p>	<p>22mm finished thickness consisting of 15mm moisture resistant chipboard/ MDF core, sourced from sustainable forests, finished on both faces with high pressure laminate, then edged with matching ABS tape, to accept a 5mm back painted toughened glass panel to the front face.</p>	<p>Available in standard finish, can be upgraded to antibacterial finish by applying silver ion to the upper layers of the material; when it comes into contact with bacteria, the silver blocks their metabolism and/or disrupts their cell-division mechanism and in so doing, destroys them.</p>	<p>10 Year Warranty UNE – EN – ISO9001:2008</p>	<p>FSC or PEFC accredited core with full chain of custody. Suitable for use in both BREEAM and LEED projects.</p>	<p>Silver ion technology Non porous Heat treated Ceramic back painted Colour choice Finishes Durable Flexible</p> <p>Kills 99.9% of bacteria Easy clean and water resistant Durable and scratch resistant Enhanced durability, colour & UV resistance RAL and pantone match Specialist etched and matt surfaces Resistant to shock, chemicals, moisture, impact, stains Sanitaryware of choice</p>	 <p>Complete RAL or Pantone colour palette.</p>
<p>ACRYLIC</p> <p>Sentry hinged or hung panel system.</p>	<p>21mm finished thickness consisting of 15mm moisture resistant chipboard/ MDF core, sourced from sustainable forests, finished on both faces with high pressure laminate, then edged with matching ABS tape, to accept a 4mm coloured acrylic panel to the front face.</p>	<p>Easy clean.</p>	<p>10 Year Warranty* ISO 9001</p>	<p>FSC or PEFC accredited core with full chain of custody. Suitable for use in both BREEAM and LEED projects.</p>	<p>Non porous Colour choice Flexible</p> <p>Easy clean and water resistant Selected range as standard Sanitaryware of choice</p>	 <p>Selected palette of colours and effects</p>
<p>CGL</p> <p>Sentry hinged or hung panel system.</p>	<p>12mm compact grade laminate, polished to all edges.</p>	<p>Available with antibacterial coating, incorporated into the laminate during the production process.</p>	<p>10 Year Warranty* ISO 9001 EN438 ISO 4586-1:2004 ASTM E-84</p>	<p>Suitable for use in both BREEAM and LEED projects.</p>	<p>Silver ion technology Nano tech option Water resistant Durable Flexible</p> <p>Kills 99.9% of bacteria Resistant to surface damage, chemicals, scratching, and significantly reduces the risk of bacteria and mould. Soft touch and anti-fingerprint. Easy clean Resistant to shock, chemicals, moisture, impact, stains Sanitaryware of choice.</p>	 <p>Selected range of colours and effects. Please give us a call to request a chip-chart.</p>
<p>HPL</p> <p>Sentry hinged or hung panel system.</p>	<p>17mm finished thickness consisting of a 15mm moisture resistant chipboard/ MDF core, sourced from sustainable forests. Where vertical edges are square, the panels are edged first and then faced with high pressure laminate, with balancing backing laminate. Alternatively, vertical edges can be postformed.</p>	<p>Available with antibacterial coating, incorporated into the laminate during the production process.</p>	<p>10 Year Warranty* ISO 9001 EN438 ISO 4586-1:2004 ASTM E-84</p>	<p>FSC or PEFC accredited panel with full chain of custody. Suitable for use in both BREEAM and LEED projects.</p>	<p>Silver ion technology Nano tech option Water resistant Durable Flexible</p> <p>Kills 99.9% of bacteria Resistant to surface damage, chemicals, scratching, and significantly reduces the risk of bacteria and mould. Soft touch and anti-fingerprint. Easy clean Resistant to shock, chemicals, moisture, impact, stains sanitaryware of choice</p>	 <p>Selected range of colours and effects. Please give us a call to request a chip-chart.</p>
<p>MFC</p> <p>Sentry hinged or hung panel system.</p>	<p>19mm MFC (Melamine faced chipboard) panel, cut to size then edged in matching ABS tape.</p>	<p>Standard.</p>	<p>1 Year Warranty ISO 9001</p>	<p>FSC or PEFC accredited core with full chain of custody. Suitable for use in both BREEAM and LEED projects.</p>	<p>Lower cost Durable Flexible</p> <p>Value engineering solution Resistant to moisture and stains (dry area compliant) Sanitaryware of choice</p>	 <p>Selected range of colours and effects. Please give us a call to request a chip-chart.</p>

* Hung panel option has 5 year warranty
